Compounds of cadmium, lead, mercury and hexavalent chromium, flame retardants PBB and PBDE, including pentabromodiphenyl ether (CAS No. 32534-81-9), octabromodiphenyl ether (CAS No. 32536- 52-0), and decabromodiphenyl ether (CAS No. 1163-19-5) have not been intentionally added to the above listed Sheffield Sheet Products. The presence of analytically detectable traces of these above mentioned heavy metals or heavy metal compounds, which occur widely and have possibly been introduced into our product(s) via the raw materials, auxiliaries and additives, cannot be excluded. Although the Sheffield Clear Sheet Products have not been analyzed for these metals, we would not expect the total of these metals to exceed 100 ppm.
